You can have quality in-service training come to your site, wherever you are in Wisconsin.

Workshops To Go are scheduled at times that work best for you — weekdays, evenings, or Saturdays. The result is convenient and cost-effective use of staff time, with no staff travel expenses. This will help you achieve more with your training budget.

Workshops To Go can enhance monthly staff meeting in-services. You tell us what you want, and WECA's experienced, enthusiastic instructors will do the rest. We want you to get exactly what you're looking for. If you require a topic that's not on our list, we will work with you to design a customized training to meet your needs.

Continuing education verification labels from The Registry are provided to all workshop participants.
