

USDA requires Programs make reasonable modifications to accommodate participants with **disabilities** to provide equal opportunity to participate. This is required only when supported by a written medical statement from Wisconsin Licensed Healthcare Professional: Physician, Physician Assistant, or Nurse Practitioner (APNP)

What is a disability? → Physical or mental impairment that substantially limits one or more major life activities (includes eating, breathing, digestive and respiratory functions, etc.). Most physical and mental impairments will constitute a disability, it does not need to be life threatening.
Ex. Digestion is impaired by lactose intolerance, whether or not consuming milk causes severe distress.

What is NOT a disability? → Eating certain foods or eliminating foods from the diet due to a general health concern and/or preference.
Ex. Request that a participant does not drink cow's milk because of a preference, not because the participant has lactose intolerance.

DISABILITY

Supported by a valid written medical statement

Program must offer a reasonable modification* that effectively accommodates the participant's disability & provides equal opportunity to participate in CACFP

Modification(s) may or may not meet CACFP meal pattern requirements

Meals are reimbursable (whether or not the CACFP meal pattern is met)

*Reasonable Modification:

- Related to disability or limitations caused by disability
- Determinations for how to accommodate a participant must be made on a case-by-case basis
- Saying 'no' to providing a modification is almost never appropriate
- Not required to provide exact substitution or other modification requested. For ex., not required to provide a particular brand name, but must offer a substitute that does not contain the specific allergen

Effectively accommodate ALL participants with the same type of disability: Design a plan to accommodate common disabilities. Many can be managed within CACFP meal pattern when a variety of foods is available. Examples:

- Offer one type of lactose-free milk to accommodate lactose intolerance. This effectively accommodates lactose intolerance, thus meets the requirement for a reasonable accommodation
- Have a variety of fruits on hand, so participant's with an allergy to a particular fruit can be served a different fruit

Written Medical Statement Must Provide:

Information about:

1. The impairment (reason for request)
2. How it restricts the diet
3. How to accommodate the impairment

For food allergy, statement should include:

1. The food(s) to be avoided (allergen)
2. Brief explanation of how exposure to the food affects the participant
3. Recommended substitution(s)

Seek clarification if statement is unclear or lacks sufficient detail so that a proper and safe meal can be provided

Must be from a WI Licensed Healthcare Professional: Physician, Physician Assistant, or Nurse Practitioner (APNP)

Examples of Medical Statements

ACCEPTABLE:

STATEMENT

Cal is lactose intolerant and cannot drink cow's milk. He should be served almond milk.

Dr. Dan Physician

NOT ACCEPTABLE:

STATEMENT

Serve Sam almond milk.

Dr. Dan Physician

Disability not supported by a valid medical statement:

Programs may choose to accommodate requests related to a disability not supported by a valid medical statement from a WI Licensed Healthcare Professional if the requested modifications can be made while meeting CACFP meal pattern requirements. Such meals are reimbursable.

NOT A DISABILITY

(Non-disability special dietary need request)

Request is *not* supported by a valid written medical statement or request is for religious, ethnic or lifestyle preference (vegetarian, organic)

Request is supported by a written statement from the parent/guardian

Programs are not required, but *may choose* to accommodate requests

Meal accommodation(s) that **meet** CACFP meal pattern requirements are reimbursable

Meal accommodation(s) that **do not meet** CACFP meal pattern requirements are **not reimbursable**

Written Statement from Parent/Guardian:

1. Identifies the non-disability special dietary need, including foods not be served and allowable substitutions
2. May include a statement that the parent/guardian chooses to provide foods (if applicable)

Accommodate requests within the meal pattern:

In many cases, requests can be managed within meal pattern requirements when a well-planned variety of foods is available. Examples:

- Offer one type of creditable soymilk to accommodate participants requesting a non-dairy beverage. Because this modification is creditable, the meal meets CACFP requirements and is reimbursable
- Accommodate vegetarian eaters by serving creditable meat alternates

Examples of non-disability special dietary need requests:

Non-dairy milk substitute <u>not nutritionally equivalent</u> to cow's milk	Includes cashew, rice, coconut and almond milk <ul style="list-style-type: none"> ➤ Not creditable ➤ When served, meals and snacks cannot be claimed for reimbursement
Ethnic, religious, vegetarian	<ul style="list-style-type: none"> ➤ Programs may choose to supply creditable food(s) and/or a creditable beverage substitute. Meals and snacks can be claimed for reimbursement ➤ Parents may choose to provide ONE creditable component; the Program must supply all other components with creditable foods. Meals and snacks can be claimed for reimbursement

Parent Provided Component:

A parent/guardian *may choose* to provide one creditable component towards a reimbursable meal for a non-disability special dietary need

- Religious
- Ethnic
- Lifestyle preference (organic, vegetarian)
- Other
 - Health reason not support by a valid written medical statement

Special Dietary Needs Tracking Form:

1. Complete for each participant accommodated with a disability or non-disability special dietary need
2. Keep form and documentation, as specified, on file
Find in Guidance Memorandum 12

Call or email your consultant when you have a question about special diet needs

This institution is an equal opportunity provider.

WISCONSIN DEPARTMENT OF PUBLIC INSTRUCTION CACFP Special Dietary Needs Tracking Form

CACFP Programs must complete this form for each participant accommodated for a disability or non-disability special dietary need. Keep this form and documentation, as specified below, on file.

Section I: Disability - Complete when a participant has a disability that restricts eating and/or feeding
Section II: Non-disability special dietary need - Complete when a participant's parent/guardian requests meal substitutions for non-disability reasons

Child's Name _____ Date form completed _____

Section I: Disability
 Complete this entire section and then select if meals can or cannot be claimed at the bottom.

Participant has a physical or mental impairment that substantially limits one or more major life activities
 ✓ Major life activities include eating, breathing, digestive, and respiratory functions, etc.
 ✓ Most physical and mental impairments will constitute a disability, it does not need to be life threatening
 ✓ Ex. Lactose intolerance is a physical impairment of the digestive function, it does not have to cause severe distress

Attached is a written medical statement from a licensed medical authority (physician, physician assistant, or nurse practitioner (APNP)) that provides:
 ✓ Information about:
 1. The impairment (reason for request)
 2. How it restricts the diet
 3. How to accommodate the impairment
 ✓ For food allergy, statement should have three essential components:
 1. The food(s) to be avoided (allergen)
 2. Brief explanation of how exposure to the food affects the participant
 3. Recommended substitution(s)

List substitution(s)/modification(s) offered by the program that effectively accommodates the disability:
 ✓ Substitutions or modifications offered must accommodate the participant, but do not have to be the exact modification requested

Choose One:
 Parent/guardian accepts program's accommodation(s)
 Parent/guardian declines program's accommodation(s) and chooses to provide: _____

Claiming Meals Determination

Claim meals:
 ✓ Section I of this form, including all applicable documentation, is complete and on file
 ✓ Program has made reasonable modification(s) to accommodate the disability
 ✓ Program provides the modification(s), or parent/guardian has elected to provide the modification(s), and the program is providing at least one component

Do not claim meals:
 ✓ Parent/guardian has elected to provide all foods; the program is not providing any component

Special Dietary Needs and the CACFP

What to Do Next:

Designate Responsible Staff

- Designate staff responsible for managing all special dietary needs. This point person will ensure:
 - Valid documentation is on file for participants with disabilities and participants' needs are met
 - Meals/snacks for non-disability special dietary needs meet CACFP meal pattern requirements
 - Only creditable meals/snacks for non-disability special dietary needs are claimed for reimbursement

Obtain Appropriate Documentation

- Special Dietary Needs Tracking Form complete for each participant with a disability or non-disability special dietary need request
- Disability: Written medical statement for physical or mental impairment that substantially limits one or more major life activities. Must be signed by a Wisconsin Licensed Healthcare Professional (Physician, Physician Assistant, Advanced Nurse Practitioner (APNP))
- Non-disability special dietary need: Written statement from parent/guardian for special dietary request

Train Staff on Accommodating Disabilities

- Inform staff that all meals/snacks must meet CACFP meal pattern requirements.
 - Participants with a disability that affects the diet must be accommodated. It is vital to follow the directive of a written medical statement to ensure the safety of a participant.
 - Kitchen staff must know how to properly manage special dietary needs and make substitutions (ex. know appropriate food substitutions, reading labels for food allergens).
 - Classroom staff must inform the designated staff responsible for managing special dietary needs when a parent/guardian brings in a food/beverage to the classroom so the request can be handled appropriately.
 - Staff completing meal counts must know that meals/snacks CANNOT be claimed when:
 - A participant is served a meal or snack that does not meet meal pattern requirements unless the participant is being accommodated for a disability that is supported with a written medical statement
 - A participant is served non-creditable food item(s) provided by the Program or the parent/guardian
 - A participant is served more than one component supplied by the parent/guardian
- Examples:*
- Non-creditable milk substitute is provided by Program or parent/guardian
 - Parent/guardian provides two components of a meal, ex. the grain and meat alternate
 - Parent/guardian provides a non-creditable component, ex. non-creditable meatless substitute

Menu Evaluation

- Review menus and determine if your program will design a meal plan within the CACFP meal pattern to accommodate common disabilities or other non-disability requests. Examples:
 - Offer lactose-free milk to accommodate participants with lactose intolerance
 - Offer a creditable non-dairy milk substitute nutritionally equivalent to cow's milk
 - Offer a daily vegetarian option
