Evaluating your child care center is an essential step toward ensuring that infants and toddlers experience the best possible care while they are with you. The criteria that are detailed in the *Infant/Toddler Environment Rating Scale-Third Edition* (by Thelma Harms, Debby Cryer, Richard M. Clifford and Noreen Yazejian) provide an easy-to-use, systematic method for determining where your facility already excels...and where it could be made even better!

Your assessment might inspire some exciting ideas for simple changes you can make, such as rearranging furniture, establishing new routines or adding new equipment. Whether you're improving an existing program, developing a new program or preparing for accreditation, Lakeshore Learning Materials offers top-quality, caregiver-tested furniture, equipment and educational supplies that are designed to meet all of your center's needs. To help you make the best purchasing decisions, we've organized a list of specially selected products that correspond to the rating categories in the *Infant/Toddler Environment Rating Scale-Third Edition*. The page numbers listed after the items provide a quick reference to our *Early Childhood* catalog, where you will find pictures and extensive details about each item on the list.
